Government Lowered Its Own Wages While N R A Raised Level in Industry

WASHINGTON — A comparison of wages paid by the Government with those paid by private industry has put the New Deal in a paradoxical situation.

While advocating higher wages for industry, it has been doing just the opposite. Wages paid to relief workers have been definitely depressed.

Here is a comparison of the present wage scale under the Work-Relief program, as against the scale paid under CWA one year ago. The figures are based on a 40-hour week.

Countries in which the population of the largest city is—	Under CWA (per hour)	Under Work-Relief (per hour)
Under 5,000	30	23
5,000-25,000	37	25
25,000-50,000	42	27
50,000-100,000	43	30
Over 100,000	49	31

In contrast to this decrease in the Government's pay schedule, the hourly earnings of common laborers in the manufacturing industries rose steadily until the end of the NRA.

According to the National Industrial Conference Board, the pay of unskilled male labor now ranges from a low of 28¢ an hour in furniture factories to 68¢ an hour in silk plants. The average for the country as a whole is 49.4¢ an hour.

This, according to the NIBC figures, is 0.8 of a cent higher than the 1929 average.

Erudite Ham

"Ah!" sighed Senator J. Ham Lewis when informed that one of New York's foremost magazine editors was divorcing his wife to marry a blonde. "It is as in the play of Beaumont and Fletcher."

"He laid his head in the lap of another Delilah and brought the temple of his domestic felicity down upon him."

Chaco Peace

Large credit for ending the war between Paraguay and Bolivia goes to Sumner Wells, Assistant Secretary of State in charge of Latin American affairs.

For two years Wells labored with the two belligerents. For two years he put forth every conceivable proposal, sacrificed his vacation weeks until late at night.

His most successful strategy was to let Argentina take the credit for peace, while he remained in the background—did the prompting.

When the final story of Chaco negotiations is told it will feature the prima donnas of peace who put their personal pride ahead of the dead they might have saved on the battlefield. This was Wells' chief obstacle.

Too Late

The chief American representative at the Buenos Aires peace conference arrived too late to take any part in it. He was Hugh Gibson, American Ambassador to Brazil.

Gibson, a career diplomat, was on leave when summoned back to help settle the Chaco dispute. He was asked to fly from Washington to Buenos Aires to get there in time. But he demurred.

In the end the State Department let him have his way. He sailed by boat, arriving three weeks later—just as the armistice was being signed.

HOUSE PASSES NEW NRA BILL TO NEXT APRIL

Measure Goes to White House for Signature; Codes Now Voluntary

FDR IS POWERLESS

Borah Amendment Results in Hot Words

WASHINGTON, June 14—The once powerful Blue Eagle, its reign in American business ended by the Supreme court, was given a new lease on life by congress today.

Congress finally authorized an extension of NRA activity until April 1, 1936 when the house approved senate amendments to the life-giving resolution.

Goes to President

The bill as passed now goes to the White House for President Roosevelt's signature.

The resolution extends until next April 1 the basic structure of the NRA but repeals the president's power to prescribe compulsory codes. Instead, the NRA is authorized to promulgate voluntary agreements in industries relating to maximum hours, minimum wages, collective bargaining, unfair trade practices and abolition of child labor.

Inclusion of the Borah amendment resulted in bitter criticism of senate leaders by house Democrats.

Chairman O'Connor of the house rules committee, openly accused Senate majority leader Robinson of Arkansas and Senator Harrison (D) of Mississippi of violating an agreement by accepting the anti-trust proviso.

GERMAN BLAST TOLL UNKNOWN

Officials Minimize Disaster Declaring 52 Known Dead In Explosion.

WITTENBERG, Germany, June 14—An iron ring of troops and police around little blast-wrecked Reinsdorf kept the toll in yesterday's munitions factory explosions secret today as workers dug in the smoking ruins, with only 52 officially admitted dead but other estimated running into the hundreds.

Twenty-two bodies have been found, according to the last official statement, and 30 were missing. Seventy-five were seriously injured and 300 slightly hurt.

Other reports, however, persisted that two-thirds of 300 men employed in the factory were killed, with many others in surrounding plants blown to pieces by the detonation. The death estimates still ran as high as a thousand today.

A thorough investigation of the explosions, coming as a hard blow to Nazi pride in the midst of Germany's rearmament, was set under way, but the theory that the blasts were the result of sabotage was officially discounted.

Every one of the workers at Reinsdorf is a member of the Nazi party, it was pointed out.

TOOILL DISCUSSES LINDBERGH CRIME

Large Crowd Listens Attentively as Writer Relates Many Details.

A better conception of the story of the Lindbergh kidnapping and the Hauptmann trial was possessed by Circleville Rotarians, Kiwanians and others today as a result of the splendid address Thursday evening by Kenneth D. Tooill, managing editor of the Ohio State Journal. The meeting was held in the American Hotel coffee shop. Mr. Tooill's address coming after a fine supper.

The newspaper man, who "covered" the trial for his paper, described the mystery from the night the baby was abducted from its crib, the resultant investigation in which many of the government's experts worked, the ransom negotiations, and finally the arrest and conviction of Bruno Richard Hauptmann.

In relating his address Mr. Tooill said: "I firmly believe Bruno Richard Hauptmann is guilty of the kidnapping of the Lindbergh baby."

He described in a vivid manner many of the personalities connected with the case, including Dr. Condon, Kessler, the government wood expert, Edward Reilly whom he has called the "Bull of Brooklyn," Mrs. Hauptmann and the defendant himself. Tooill scored the defense witnesses terming many of them "nuts" and flimsy for publicity.

Although he talked for two hours his interesting manner of discussion retained the attention of all his listeners.

The speaker's description of the courtroom while the jury was deliberating the evidence was "true to life" and resulted in many laughs.

Mr. Tooill was introduced by K. J. Herrmann, business manager of The Herald.

Walkout Delayed Until June 30; Believe Guffey Bill to be Passed

TOLEDO IN TROUBLE

Edison Power Men Again Leave Their Jobs

WASHINGTON, June 14—The strike of 400,000 soft coal miners in the nation, scheduled for Sunday night, was averted today after President Roosevelt's plea that the present wage and hour schedule be continued until June 30.

A soft coal miners were pledged to refuse to return to work Monday morning unless the Guffey coal bill, was passed in the house.

Power Men Quit

TOLEDO, June 14—Toledo today was torn with its second major power strike within eight days.

Without warning, A. F. of L. union electrical workers of the Toledo Edison Co. voted unanimously at a meeting late last night to renew their last week's strike for a 20 per cent increase in wages and before the session adjourned picket lines were established at the five Edison plants.

The walkout came as a complete surprise as reports which came out of Washington early this week indicated a settlement was near. Myers said, after the Washington session, that he had "a very good report to make" to the union here.

21 Remain in Plant

E. L. McBee, superintendent of the Acme plant, heart of the power system in Toledo, said 21 workers remained in the plant prepared to keep that station operating as long as possible. No men were taken through the picket line today and it was understood that sleeping quarters have been arranged in the plant and some food taken in.

McBee said there will be no interruption in service today as far as the Acme plant is concerned and indicated that special measures were being taken to guard against an attack on the plant.

44 INCHES DIVIDE RIGHT AND WRONG

The Herald has learned since yesterday's edition reached its multitude of readers that there is some "little difference between 'four feet' and 'four inches'—in fact, the proper calculation gives a range of exactly 44 inches, and that really is quite a difference when applied to heads of growing wheat.

In reporting a crop of wheat grown by E. O. Martin, Harrison-twp., samples of which are in the window at The Herald office, the writer of the story stated that "the stems measured 'six feet in length, with heads more than four feet long'."

The "boner" went the route from desk to desk, from writer to copyreader, to linotypist, to proofreader, to finally parade before the public before anyone discovered that heads of wheat are usually about four "inches" long instead of four "feet" long.

And 40,000 people took us to task about it. There's only this about this noble profession that is appealing—you can make a statement one day and retract it the next, and that's the only purpose of this story. See the evidence in the window at The Herald office for confirmation.

Curtain Falls on Murder That Mystified the South

Ouida Keeton at the time of her trial.

Business Man Sentenced to Life After Young Woman Confesses He Helped Her Kill Mother.

LAUREL, Miss., June 14—"Lie in prison!"

Thus does the curtain fall on one of the most sensational murders the south has ever known.

W. M. Carter, 67, businessman and churchman, is appealing the

jury's verdict, but there is small possibility that it will be set aside. Carter was indicted jointly with Ouida Keeton for the slaying last January, of Miss Keeton's mother, Mrs. Daisy Keeton.

Ouida Keeton, 33-year-old brunette, was placed on trial first, had confessed and had implicated Carter as the actual slayer and disposer of the upper part of the dismembered body of her mother—the part which never was found and which was said to have been burned by Ouida in her mother's own house.

Miss Keeton admitting taking the lower torso wrapped in sugar sack and dumping it out of her automobile in the woods near Sandersville, Miss., ten miles from here.

At her trial Miss Keeton collapsed. She sat speechless in her wheel chair as she was found guilty and sentenced to life imprisonment.

She has, however, been out on bond, due to ill health.

Carter persisted in a steadfast and complete denial of any complicity in the murder and butchery of the 52-year-old widow. A (Continued On Page Six)

TCOILL DISCUSSES LINDBERGH CRIME

Large Crowd Listens Attentively as Writer Relates Many Details.

A better conception of the story of the Lindbergh kidnapping and the Hauptmann trial was possessed by Circleville Rotarians, Kiwanians and others today as a result of the splendid address Thursday evening by Kenneth D. Toiill, managing editor of the Ohio State Journal. The meeting was held in the American Hotel coffee shop. Mr. Toiill's address commenced after a fine supper.

The newspaper man, who "covered" the trial for his paper, described the mystery from the night the baby was abducted from its crib, the reluctant investigation in which many of the government's experts worked, the ransom negotiations, and finally the arrest and conviction of Bruno Richard Hauptmann.

In starting his address Mr. Toiill said: "I firmly believe Bruno Richard Hauptmann is guilty of the kidnapping of the Lindbergh baby."

He described in a vivid manner many of the personalities connected with the case, including Dr. Condon, Koehler the government wood expert, Edward Reilly whom he, too, called the "Bull of Brooklyn," Mrs. Hauptmann and the defendant himself. Toiill scored the defense witnesses terming many of them "nuts" and flimsy for publicity.

Although he talked for two hours his interesting manner of discussion retained the attention of all his listeners.

The speaker's description of the courtroom while the jury was deliberating the evidence was "true to life" and resulted in many laughs.

Mr. Toiill was introduced by K. J. Herrmann, business manager of The Herald.

NATION'S COAL STRIKE FOILED BY FDR ACTION

Walkout Delayed Until June 30; Believe Guffey Bill to be Passed

TOLEDO IN TROUBLE

Edison Power Men Again Leave Their Jobs

WASHINGTON, June 14—The strike of 400,000 soft coal miners in the nation, scheduled for Sunday night, was averted today after President Roosevelt's plea that the present wage and hour schedule be continued until June 30.

A soft coal miners' were pledged to refuse to return to work Monday morning unless the Guffey coal bill was passed in the house.

Power Men Quit

TOLEDO, June 14—Toledo today was torn with its second major power strike within eight days.

Without warning, A. F. of L. union electrical workers of the Toledo Edison Co. voted unanimously at a meeting late last night to renew their last week's strike for a 20 per cent increase in wages and before the session adjourned picket lines were established at the five Edison plants.

The walkout came as a complete surprise as reports which came out of Washington early this week indicated a settlement was near. Myers said, after the Washington session, that he had "a very good report to make" to the union here.

21 Remain in Plant

E. L. McBee, superintendent of the Acme plant, heart of the power system in Toledo, said 21 workers remained in the plant prepared to keep that station operating as long as possible. No men were taken through the picket line today and it was understood that sleeping quarters have been arranged in the plant and some food taken in.

McBee said there will be no interruption in service today as far as the Acme plant is concerned and indicated that special measures were being taken to guard against an attack on the plant.

44 INCHES DIVIDE RIGHT AND WRONG

The Herald has learned since yesterday's edition reached its multitude of readers that there is some "little difference between "four feet" and "four inches"—in fact, the proper calculation gives a range of exactly 44 inches, and that really is quite a difference when applied to heads of growing wheat.

In reporting a crop of wheat grown by E. O. Martin, Harrison twp, samples of which are in the window at The Herald office, the writer of the story stated that "the stems measured "six feet in length, with heads more than four feet long."

The "boner" went the route from desk to desk, from writer to copyreader, to linotypist, to proofreader, to finally parade before the public before anyone discovered that heads of wheat are usually about four "inches" long instead of four "feet" long.

About 40,000 people took us to task about it. There's only this about this noble profession that is appealing—you can make a statement one day and retract it the next, and that's the only purpose of this story. See the evidence in the window at The Herald office for confirmation.

FISH SCORES BAER EFFORTS IN TITLE BOUT

Braddock, Alone, Runs True
To Form to Win World's
Championship.

YORK, June 14—All hail, the champion of all the heavyweights, James J. Braddock, husband, father, sound citizen and steady example of the fact that the virtues need not be dull. It is a fabulous tale of the down-and-out; almost in rags a year ago and unwanted anywhere when he came back from the grave to win a title that hitherto had been reserved only to the elect of the profession. So all hail—and shed a tear.

Not of course, for Braddock, the man who won the championship last night so easily at the close of fifteen rounds as to leave his opponents gibbering and aghast at the absolute heresy of the thing.

Not, either, for Max Baer, the moneybank champion, or for myself and the other sports writers who wrote so learnedly about the positive butchery that must come with Baer's victory. No, the tear is not for any of these, but for all of them and the sport that could and did produce so ludicrous a thing as took place out there in the cool of a Long Island evening in the Garden's fateful bowl.

Alone, out of all the mess, stood the earnest James J. Braddock, a moment among chaos and worse. His name must carry down through the corridors of time as the only man who couldn't fight but did, when the time came. He alone, of all of us, ran true to form and, in fact, perhaps a little ahead of it.

He had to, in order to beat the reputed odds of 1-10 at the ring-

side. But, either way, there was nothing ludicrous about it. "My left hand buckled under me in the second round," said Baer in his dressing room afterward.

"I hated to use it after that. It was like a knife."

Too bad, then, that he didn't add the right to the list of damages and thus have two knives, one for each hand. Only in that way could this heavyweight champion have been saved from the ignominy of making the most grotesque defense of the title ever witnessed in the modern age. Maybe he couldn't fight; maybe he wouldn't. In any case, he didn't.

Only Franking? More than that, I'm convinced now that the man is without ordinary gumption. He was losing practically every round when, in the seventh, he was nailed with a right to the chin. The crowd, estimated at 30,000, really got a life when it thought this falstaff was on his way down. Instead, he was only franking—but don't let them tell you he didn't give a wonderful performance.

Somewhere in the first five when the crowd got on him for flogging Braddock out of a clinch, he promptly abandoned the prize fight and executed a mock bow and, in the fifteenth, when he was a thousand to one and the seconds were hurrying on around the clock, he stopped to argue with Referee McAvooy after the latter ordered him to break. Explain it? You can't even write about it with coherence.

Before the prize fight, I offered to go off the Empire State Tower to pay my bet on Baer. I also promised to take Baer with me. For myself, I can only say that, rather than ever write seriously about sports again, I shall go off the curb stone, which seems awfully high to me just now. You see, I've been wrong before, but I kind of think I exceeded the privilege last night.

For Baer, there isn't any doubt about what he'll do. I'm sure he hasn't sense to go off the Empire State or even the false front of Barney's Clothing Emporium, Inc.

He did talk about quitting it all last night but again he has me at a disadvantage. I thought he did that in the ring. But that's probably giving Baer too much credit and Braddock too little.

Modern Horatio Alger Hero

Jimmy Braddock

Braddock, a relief client a year ago, today was champion of the boxing world by virtue of his amazing defeat of Smokey Maxie Baer in the Garden on Long Island last night. Baer's defense of his title was reputed among the worst in history.

HILL AWARDED NOD IN FIGHT

Gains Decision Over Don
Brannon in Aronson's
Main-go Thursday.

Gaines Hill won the decision in his bout with Don Brannon at Scippo park Thursday evening in the feature of Norman Aronson's weekly amateur card.

The fight was a good one and was witnessed by an interested crowd, not large but sufficient to make the card a success.

The Hill-Brannon bout was booked as a grudge duel and both boys swung their fists with reckless abandon, but Hill got the edge.

Willie Gaines, ONG champion, gained the decision over Herschel "Kid" Moats, outweighing his foe five pounds. This match was in the semi-final.

The preliminaries found Jack Barkens at 145 defeating Pug Fowler at 160, and Merle Thomas and Howard Conley drawing.

Aronson has not announced the personnel of his next card.

About This And That BY THE SECOND GUESSER

"Joyously Agog"
The sports world was joyously agog today because of the unsurpassed upset provided by James J. Braddock, stevedore-has-been-relief client, in wrestling the heavyweight championship belt from the lithe waste of Maxie Baer, pride of every bright spot in America. That's probably the biggest reason he lost his crown.

Little Money at 10 to 1
Braddock's fight was superb; he said he knew how he could hit Baer and how he could keep the Californian from hitting him. The judges, Referee Johnny McAvooy and the 30,000 in the crowd unanimously greeted the new champion. The odds at ringtime, they say, went to 10 to 1 on Baer, and it is doubtful if there was much money available for Braddock at that fancy figure. . . . This column falling in line with practically every other predicted an easy Baer victory, but rejoices with the rest that Braddock won the crown. He'll take much, much better advantage of it than did Baer.

Part of Darby Closed
Although bass season opens Sunday the state has closed a number of streams for fishing until July 1 to give fish a chance to propagate. Darby creek in Jackson-twp has been closed. All closed areas are well marked and there will be little excuse for violation of the law. The notices read: "Propagation water—no fishing or taking of mussels, frogs, turtles or bait until July 1, 1935, under authority of section 1438-2, penalty \$25 to \$200. Ohio Division of Conservation."

Many Fish Released
To date 60,000 brooder fish from Lake Erie have been released in the waters of the state in addition to 50,000 crappies from Meander Lake, 75,000 trout fingerlings from the U. S. bureau of fisheries, 50,000 muskellunge fry from the New York state conservation department, and 10,000,000 yellow perch fry from the state Put-in-Bay hatchery.

CITIES SERVICE OUTFIT VICTOR

Unless the Circleville Oils make a prompt about face the Eshelman Feeds will end this week with a perfect record for the recreation ball season. The teams tangle at 6:30.

The Oils unceremoniously fell before the attack of the Cities Service Oils 1 to 19 Thursday evening in a game that was a riot from the third inning on. The Cities Service clubbers halted earlier this week by the Jones Specials scored two in the second, five in the fourth, four in the fifth, three in the seventh and five in the ninth. The lone Oil run came over in the seventh frame, Cum Robinson scoring it.

By the time the last inning was reached only a hand full of fans were on hand.

The Cities Service had 19 hits while the Circleville Oils tallied six off Leonard Buskirk.

The schedule for next week has been drawn in an effort to have every team up to the five game mark.

The schedule follows:
Monday: Cities Service vs. Eshelman Feeds.

Tuesday: Pickaway Dairy vs. Jones Specials.

Wednesday: Pickaway Dairy vs. Cities Service.

Thursday: Purina Chows vs. Circleville Oils.

Friday: Pickaway Dairy vs. Purina Chows.

The standings:

Pickaway Dairy	2	1	1	.500

"TROUBLED WITH CONSTIPATION" FOR PAST 25 YEARS

Then ALL-BRAN Brought Welcome Relief

Read this voluntary letter from Mr. Lecourt: "I have been troubled with constipation for the past 25 years. I tried practically every cathartic without results.

"Recently, I determined to give Kellogg's ALL-BRAN a fair trial. Kellogg's ALL-BRAN has not only helped me, but I believe it is an actual relief for chronic constipation." — Mr. Henry E. Lecourt, 4 Mountain Ave., Worcester, Mass.

ALL-BRAN is "insufficient bulk" in meals. Kellogg's ALL-BRAN provides "bulk" to aid elimination. It also furnishes vitamin B and iron.

The "bulk" in ALL-BRAN is gentle and safe for normal individuals. Often more effective than "bulk" in fruits and vegetables, as it does not break down within the body.

Isn't this natural food pleasanter than patent medicines? Just eat two tablespoonsful daily. Chronic cases, with each meal. If not relieved, see your doctor.

Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

"TROUBLED WITH CONSTIPATION" FOR PAST 25 YEARS"

Then ALL-BRAN Brought Welcome Relief

Read this voluntary letter from Mr. Lecour: "I have been troubled with constipation" for the past 25 years. I tried practically every cathartic without results.

"Recently, I determined to give Kellogg's ALL-BRAN a fair trial. Kellogg's ALL-BRAN has not only helped me, but I believe it is an actual relief for chronic constipation."—Mr. Henry E. Lecour, 4 Vaughan Ave., Worcester, Mass.

Due to insufficient "bulk" in meals.

Kellogg's ALL-BRAN provides "bulk" to aid elimination. It also furnishes vitamin B and iron.

The "bulk" in ALL-BRAN is gentle—and safe for normal individuals. Often more effective than "bulk" in fruits and vegetables, as it does not break down within the body.

Isn't this natural food pleasanter than patent medicines? Just eat two spoonfuls daily. Chronic cases, with each meal. If not relieved, see your doctor.

Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

This Square In Two Colors Makes Handkerchiefs, Aprons, etc.

PATTERN 5160

Pick-up work that is easily carried about is popular in summer with the modern needlewoman. This lovely square to be done in string not only meets with her approval in this regard but also fills all her requirements of the decorative. It's an easy square, so she soon knows it by heart. It is to be done in white with a touch of color, so it offers her variety. It is striking in design, so she proudly shows the cloths, the

scarfs, the pillows or bed-spreads that she has made of it.

In pattern 5160 you will find detailed instructions for making the square and joining it to make a variety of articles; material requirements; illustrations of the square and of all stitches used.

Household Arts

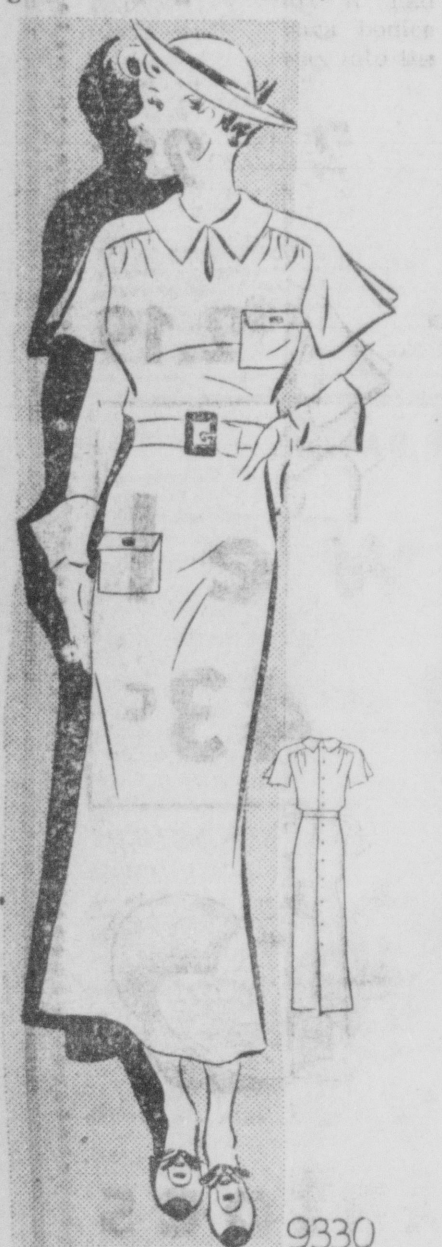

Pick-up work that is easily carried about is popular in summer with the modern needlewoman. This lovely square to be done in string not only meets with her approval in this regard but also fills all her requirements of the decorative. It's an easy square, so she soon knows it by heart. It is to be done in white with a touch of color, so it offers her variety. It is striking in design, so she proudly shows the cloths, the

scarfs, the pillows or bed-spreads that she has made of it. In pattern 5160 you will find detailed instructions for making the square and joining it to make a variety of articles; material requirements; illustrations of the square and of all stitches used. To obtain this pattern send 10 cents in stamps or coin (coin preferred) to The Herald Household Arts Dept., 124 W. Main-st., Circleville, O.

Marian Martin Patterns

Ever the Feminine Prerogative—to change her mind! Here's a little sports frock that exercises the privilege. The neat young collar and clean-cut pockets look as though this dress started out to be a Tailored Triumph! But what a change of heart it had when that front and back bodice gathered its feminine way into the

shoulder yoke. And what a clever yoke that is to become a breezy pleated sleeve without another cut of fabric. The simulated back closing is another surprise for the admiring onlookers! Choose a washable fabric like linen or pique, shantung or sports silk and don't change your mind about making it up immediately! Complete, Diagrammed Marian Martin Sew Chart Included.

Pattern 9330 may be ordered only in sizes 12, 14, 16, 18, 20, 32, 34, 36, 38 and 40. Size 16 requires 3 1/2 yards 36 inch fabric. Send FIFTEEN CENTS in coins or stamps (coins preferred) for EACH MARIAN MARTIN pattern. Be sure to write plainly your NAME, ADDRESS, the STYLE NUMBER and SIZE of each pattern.

JUST OUT... MARIAN MARTIN SUMMER PATTERN BOOK... forty enlightening pages to lead your way to Summer Chic! Clothes for every occasion for every member of the family, from the Tiny Tot, the Dashing Deb, the Blushing Bride to the Mature Matron! Every design beautifully illustrated, every pattern so easy even the Beginners are assured of success! SEND FOR YOUR COPY NOW! PRICE OF BOOK FIFTEEN CENTS. The Necesssary Topping And Filling for Cakes

Seven Minute Icing is one of the most popular and the useful all-purpose icing use: seven eighth cup granulated sugar; one unbeaten egg white; three tablespoons cold water; half teaspoon any flavoring; one half teaspoon baking powder.

Place all but the baking powder and flavoring in the upper part of a double boiler, over boiling water, and beat with wheel beater seven minutes, or until thick. Add flavoring and baking powder, beat again, and spread on cake.

Fondant Icing
Have ready two and one half

Chocolate Icing
Two and one half squares chocolate; one tablespoon butter; one unbeaten egg white; two cups confectioner's sugar; two-three tablespoons thin cream.

Melt chocolate with butter; put egg white into shallow dish; add sugar slowly beating until light and smooth; add chocolate and sufficient cream to make right consistency to spread.

Caramel Icing and Filling
Three tablespoons butter; three and one half cup confectioner's sugar; four tablespoons caramel syrup; three to four tablespoons milk.

Cream butter; add sugar slowly; add syrup and milk a little at a time until right consistency to spread. Allow to stand about twenty minutes before spreading thickly between layers and on top.

To make caramel syrup put two thirds cup granulated sugar in saucepan and melt slowly, stirring until light golden brown. Add slowly one cup boiling water and boil gently until consistency of syrup.

Uncooked Orange Icing
Two cups finest powdered sugar; two tablespoons cornstarch; yolk of one egg; one tablespoon grated orange peel; one orange juice (slightly heated) to make a mixture which will spread.

Blend and beat hard a few minutes. Spread on cake.

Fudge Frosting
Two cups sugar; two tablespoons corn syrup; three squares

unsweetened chocolate; one half cup milk; two tablespoons butter; one teaspoon vanilla extract.

Cook sugar, corn syrup, chocolate and milk to 232° F. or until syrup forms a very soft ball when tested in cold water. Stir occasionally to prevent burning. Remove from fire, add butter. Cool to lukewarm. Add vanilla extract and beat until creamy and right consistency to spread.

Mocha Icing and Filling
Three tablespoons butter; three cups confectioner's sugar; five tablespoons cocoa; five tablespoons strong cold coffee; one teaspoon vanilla extract.

Cream butter; add sugar and cocoa very slowly, beating until light and fluffy. Add coffee and vanilla slowly, a few drops at a time making soft enough to spread.

Questions and Answers

How is rhubarb meringue pie made? Is a lover crust used?
Rhubarb meringue pie is a deep dish fruit pie made with a lower pastry crust and filling of stewed seasoned rhubarb. The topping is meringue which is browned lightly in the oven or under the broiler flame.

Should dried fruits be hard to grind in a food grinder or is chopping easier to get the fruits in fine pieces?
When citron, raisins, nuts, figs, dates, and other sticky fruits are to be run through the food grinder for cookies, spice cake, fruit cake and the like, mix a little of the flour called for in the recipe with the fruit as you grind it. This keeps the fruit from sticking together or gumming up the grinder. If you want these fruits for salads, sandwiches or other things where you cannot use flour, moisten the fruit with lemon juice before you grind it.

Is there any treatment for bananas that will keep them from discoloring after they have been cut?
To prevent discoloration of bananas put the cut or sliced fruit in a solution of cream of tartar, corn syrup and water. Canned or fresh grapefruit or pineapple juice, orange or lemon juice prevent discoloration of the bananas. If the color has been darkened, it can be restored by the use of canned or fresh grapefruit juice, or canned pineapple juice.

Do you have a recipe for a cake topped with a meringue for frosting?
This meringue is especially good because it is made with marshmallows:

Marshmallow Meringue Icing
2 egg whites, beaten
1 C. granulated sugar
1 C. chopped nut meats
8 marshmallows, cut in quarters

Beat egg whites until they just begin to hold their shape in peaks. Then gradually add the granulated sugar, beating constantly while adding sugar. Fold in nuts and marshmallows, and swirl on the top of cake batter. Bake in a moderate low oven (325 degrees) for approximately 1 hour, or until the cake begins to shrink away from the sides of the pan.

Cocoanut Loaf is delicious when topped and baked with this meringue. All cakes are not successes when this method of baking is tried so here is the recipe for the cake to go with the icing.

Cocoanut Loaf
3/4 C. butter
1 C. granulated sugar
3 eggs
2 C. cake flour
2 1/2 tsp. baking powder
1/4 tsp. salt
1/2 C. cocoanut
3 C. nut meats, broken
3/4 C. milk
1 tsp. vanilla

Cream butter and add sugar slowly. Add egg yolks and beat well. Sift the dry ingredients and add a small portion to the cocoanut and nuts. Add the remainder to the sugar mixture alternately with the milk and vanilla extract. Add floured nuts and cocoanut, and fold in the egg whites, beaten until stiff. Place in a well greased loaf pan and top with marshmallow meringue icing before baking.

People think being a duke must be great fun. Well, it has its advantages, but I am not quite sure I am glad I was born a duke.—Duke of Manchester, recently sentenced to prison for fraud.

The Marble Cake

Two cups sifted cake flour; two teaspoons baking powder; one fourth teaspoon salt; one half cup shortening; one cup sugar; two eggs; well beaten; two thirds cup milk; one teaspoon cinnamon; one half teaspoon cloves; one half teaspoon nutmeg; two tablespoons milk.

Sift flour once, measure, add baking powder and salt, and sift together three times. Blend shortening and sugar thoroughly and cream together until light and fluffy. Add eggs; then flour alternately with milk, small amount at a time. Beat after each addition until smooth. Divide batter into two parts. To one part add spices and molasses. Put by tablespoons into greased loaf pan, eight by four by three inches, alternating light and dark mixtures. Bake in moderate oven, 350° F. one hour and fifteen minutes or until done. Use frosting.

Chocolate Frosting

Two cups sifted confectioners' sugar; one half teaspoon vanilla; one eighth teaspoon salt; one and one half squares unsweetened chocolate, melted; four teaspoons milk (about); four tablespoons butter.

Cream butter; add part of sugar gradually, blending after each addition. Add vanilla, salt and chocolate and mix well. Add remaining

sugar, alternately with milk, until of right consistency to spread. Beat after each addition until smooth.

Crepe de Menthe Ice

I promised some additional refrigerator desserts. This one is especially good for the shower parties.

One and two thirds cups sugar; three cups water; one half cup lemon juice; one fourth cup crepe de menthe (any grocer or fancy grocer) one eighth teaspoon salt.

Boil sugar and water together for five minutes. Let cool. Add the remaining ingredients. Freeze in a deep refrigerator tray, stirring three or four times during the freezing period. The quicker this is frozen, the better the texture.

Custard Ice Cream
One cup sugar; one and one half tablespoons flour; one eighth teaspoon salt; one cup milk; scalded; one egg; two teaspoons vanilla extract; one pint thin cream or one cup milk and one cup heavy cream.

Mix one fourth cup of the sugar with the flour and salt, add the hot milk to this slowly. Return to the double boiler, stirring and cooking until the mixture is thick. Beat the egg slightly and add remaining one fourth cup sugar; add egg to the hot mixture and stir well. Stir and cook for one minute. Remove from the heat and cool. Add the cream or milk and flavoring to the cold custard. Freeze in refrigerator trays stirring well after the first hour, and against after another hour. Then let stand.

Seven Minute Icing is one of the most popular and the useful all-purpose icing use: seven eighth cup granulated sugar; one unbeaten egg white; three tablespoons cold water; half teaspoon any flavoring; one half teaspoon baking powder.

Place all but the baking powder and flavoring in the upper part of a double boiler, over boiling water, and beat with wheel beater seven minutes, or until thick. Add flavoring and baking powder, beat again, and spread on cake. Enough for a two-layer cake.

Fondant Icing
Have ready two and one half cups sugar; one fourth cup white corn syrup; one half cup water; one teaspoon any flavoring.

Stir all but flavoring in a saucepan to dissolve the sugar. Bring to boiling and cook until it forms a soft ball when tried in cold water, or 238 degrees F., candy thermometer. Remove from heat, pour on a large, well greased platter and cool — then begin and knead like dough, cover and set aside for twenty-four hours. To use, melt in a double boiler adding flavoring and a tablespoon or two of boiling water to make a spreading consistency.

Chocolate Icing
Two and one half squares chocolate; one tablespoon butter; one unbeaten egg white; two cups confectioner's sugar; two-three tablespoons thin cream.

Melt chocolate with butter; put egg white into shallow dish; add sugar slowly beating until light and smooth; add chocolate and sufficient cream to make right consistency to spread.

Caramel Icing and Filling
Three tablespoons butter; three and one half cup confectioner's sugar; four tablespoons caramel syrup; three to four tablespoons milk.

Cream butter; add sugar slowly; add syrup and milk a little at a time until right consistency to spread. Allow to stand about twenty minutes before spreading thickly between layers and on top.

To make caramel syrup put two thirds cup granulated sugar in saucepan and melt slowly, stirring until light golden brown. Add slowly one cup boiling water and boil gently until consistency of syrup.

Uncooked Orange Icing
Two cups finest powdered sugar; two tablespoons cornstarch; yolk of one egg; one tablespoon grated orange peel; one orange juice (slightly heated) to make a mixture which will spread. Blend and beat hard a few minutes. Spread on cake.

Fudge Frosting
Two cups sugar; two tablespoons corn syrup; three squares

unsweetened chocolate; one half cup milk; two tablespoons butter; one teaspoon vanilla extract.

Cook sugar, corn syrup, chocolate and milk to 232° F. or until syrup forms a very soft ball when tested in cold water. Stir occasionally to prevent burning. Remove from fire, add butter. Cool to lukewarm. Add vanilla extract and beat until creamy and right consistency to spread.

Mocha Icing and Filling
Three tablespoons butter; three cups confectioner's sugar; five tablespoons cocoa; five tablespoons strong cold coffee; one teaspoon vanilla extract.

Cream butter; add sugar and cocoa very slowly, beating until light and fluffy. Add coffee and vanilla slowly, a few drops at a time making soft enough to spread.

Questions and Answers

How is rhubarb meringue pie made? Is a lower crust used?

Rhubarb meringue pie is a deep dish fruit pie made with a lower crust and filling of stewed seasoned rhubarb. The topping is meringue which is browned lightly in the oven or under the broiler flame.

Should dried fruits be hard to grind in a food grinder or is chopping easier to get the fruits in fine pieces?

When citron, raisins, nuts, figs, dates, and other sticky fruits are to be run through the food grinder for cookies, spice cake, fruit cake and the like, mix a little of the flour called for in the recipe with the fruit as you grind it. This keeps the fruit from sticking together or gumming up the grinder. If you want these fruits for salads, sandwiches or other things where you cannot use flour, moisten the fruit with lemon juice before you grind it.

Is there any treatment for bananas that will keep them from discoloring after they have been cut?

To prevent discoloration of bananas put the cut or sliced fruit in a solution of cream of tartar, corn syrup and water. Canned or fresh grapefruit or pineapple juice, orange or lemon juice prevent discoloration of the bananas. If the color has been darkened, it can be restored by the use of canned or fresh grapefruit juice, or canned pineapple juice.

Do you have a recipe for a cake topped with a meringue for frosting?

This meringue is especially good because it is made with marshmallows:

Marshmallow Meringue Icing
2 egg whites, beaten
1 C. granulated sugar
1 C. chopped nut meats
8 marshmallows, cut in quarters

Beat egg whites until they just begin to hold their shape in peaks. Then gradually add the granulated sugar, beating constantly while adding sugar. Fold in nuts and marshmallows, and swirl on the top of cake batter. Bake in a moderate low oven (325 degrees) for approximately 1 hour, or until the cake begins to shrink away from the sides of the pan.

Cocoanut Loaf is delicious when topped and baked with this meringue. All cakes are not successes when this method of baking is tried so here is the recipe for the cake to go with the icing.

Cocoanut Loaf
3/4 C. butter
1 C. granulated sugar
3 eggs
2 C. cake flour
2 1/2 tsp. baking powder
1/4 tsp. salt
1/2 C. cocoanut
1/2 C. nut meats, broken
3/4 C. milk
1 tsp. vanilla

Cream butter and add sugar slowly. Add egg yolks and beat well. Sift the dry ingredients and add a small portion to the cocoanut and nuts. Add the remainder to the sugar mixture alternately with the milk and vanilla extract. Add floured nuts and cocoanut, and fold in the egg whites, beaten until stiff. Place in a well greased loaf pan and top with marshmallow meringue icing before baking.

People think being a duke must be great fun. Well, it has its advantages, but I am not quite sure I am glad I was born a duke. — Duke of Manchester, recently sentenced to prison for fraud.

The Marble Cake

Two cups sifted cake flour; two teaspoons baking powder; one fourth teaspoon salt; one half cup shortening; one cup sugar; two eggs well beaten; two thirds cup milk; one teaspoon cinnamon; one half teaspoon cloves; one half teaspoon nutmeg; two tablespoons molasses.

Sift flour once, measure, add baking powder and salt, and sift together three times. Blend shortening and sugar thoroughly and cream together until light and fluffy. Add eggs; then flour alternately with milk, small amount at a time. Beat after each addition until smooth. Divide batter into two parts. To one part add spices and molasses. Put by tablespoons into greased loaf pan, eight by four by three inches, alternating light and dark mixtures. Bake in moderate oven, 350° F. one hour and fifteen minutes or until done. Use frosting.

Chocolate Frosting

Two cups sifted confectioners' sugar; one half teaspoon vanilla; one eighth teaspoon salt; one and one half squares unsweetened chocolate, melted; four teaspoons milk (about); four tablespoons butter.

Cream butter; add part of sugar gradually, blending after each addition. Add vanilla, salt and chocolate and mix well. Add remaining

sugar, alternately with milk, until of right consistency to spread. Beat after each addition until smooth.

Crepe de Menthe Ice
I promised some additional refrigerator desserts. This one is especially good for the shower parties.

One and two thirds cups sugar; three cups water; one half cup lemon juice; one fourth cup creme de menthe (any grocer or fancy grocer) one eighth teaspoon salt.

Boil sugar and water together for five minutes. Let cool. Add the remaining ingredients. Freeze in a deep refrigerator tray, stirring three or four times during the freezing period. The quicker this is frozen, the better the texture!

Custard Ice Cream
One cup sugar; one and one half tablespoons flour; one eighth teaspoon salt; one cup milk; scalded; one egg; two teaspoons vanilla extract; one pint thin cream or one cup milk and one cup heavy cream.

Mix one fourth cup of the sugar with the flour and salt, add the hot milk to this slowly. Return to the double boiler, stirring and cooking until the mixture is thick. Beat the egg slightly and add remaining one fourth cup sugar; add egg to the hot mixture and stir well. Stir and cook for one minute. Remove from the heat and cool. Add the cream or milk and flavoring to the cold custard. Freeze in refrigerator trays stirring well after the first hour, and against after another hour. Then let stand.

6 ADDRESSES ON SCHEDULE FOR NHA DAY

Interested Persons To Gather
at Newly-Constructed Build-
ing Saturday.

The Better Housing exercises for
Circleville will begin Saturday at
9:30 p. m. at the Cassabelle tea-
room, 836 N. Court-st.

The program will include talks
by M. E. Corotis, assistant director
for the Southern Ohio district
of the Federal Housing adminis-
tration; Mrs. Clark Will, president
of the Child Conservation League
of America; Karl J. Herrmann,
president of the Chamber of Com-
merce; John C. Godler, president
of The Circleville Savings &
Banking Co.; Miss Charlotte Mc-
Ewing, president of the Business
and Professional Women's club
T. O. Gilliland, chairman of the
Federal Housing Administration
for Pickaway-co.

There will be music by the ju-
nior band of the public schools un-
der the direction of Prof. Zaeng-
lein.

A large crowd of interested per-

sons is expected to attend these
exercises as National Better Hou-
sing Day is being celebrated all
over the United States and Circle-
ville is fortunate in having a
building already constructed un-
der the Federal Housing plan and
also in securing the services of
Mr. Corotis from the district of-
fice to thoroughly explain the op-
erations of the Federal Housing
plan.

There are a great many persons
in this community who contem-
plate building new homes and re-
modeling their old ones and the
Government has made it possible,
through this plan, for them to ob-
tain money from the banks at a
low rate of interest for building
and remodeling.

It is suggested by the Chairman
Mack Parrett, Jr. for all to be
present at these exercises and ac-
quaint themselves with benefits of
this easy way to build and remodel
homes.

LOCAL FIRMS HELP IN NEW BUILDING

When the dedication of the
"Cassabelle Tea Room" is held
Saturday afternoon under the Bet-
ter Housing program of the Fed-
eral Housing committee of Picka-
way-co, several local concerns will
be mentioned as having a part in
the construction of the building
under the Federal Housing Act.

The lumber and mill work for
the new building was furnished by
the Circleville Lumber Co., T. O.
Gilliland, chairman of the Picka-
way-co committee, has been very
active in promoting the program
of construction and remodeling un-
der the FHA act and can be
proud of the building occupied by
the tea room.

The Myers Cement Products Co.
furnished the concrete blocks,
stucco and plaster for the build-
ing as well as doing the cement
work.

INSTRUCTOR DIES

COLUMBUS, June 14—Albert

neering instructor at Ohio State
university, was found dead Thurs-
day afternoon in his laboratory
after a heart attack.

He was a native of Fostoria.

administration, to strengthen the
legal powers of the TVA.

The measure was passed by
the Senate by a large vote.
But a Democrat-Republican
coalition in the House, Com-
mittee refused to give it a favorable
report. The Administration is
making a strenuous effort to break this
deadlock.

A member of the committee is
Frank Dorsey, Philadelphia Dem-
ocrat. Dorsey is a friend and
warm admirer of Captain Percy
W. Foote, Chief of Staff of the
Philadelphia Navy Yard.

Foote, an aide to Josephus Dan-
iels when the latter was Secre-
tary of the Navy, is rated an able
popular officer, but in 1921 while
in the performance of duty his
hearing suffered an impairment.
As a result the Navy Board has
refused to pass him for advance-
ment to the rank of Admiral.

On the ground that this attitude
is arbitrary and unfair, Dorsey
introduced a bill requiring the
Navy Board to give his friend a
new examination. Daniels, now
Ambassador to Mexico, personally
testified in behalf of the measure.
Governor Earle, of Pennsylvania,
and others wrote letters endorsing
it.

But Chairman Carl Vinson
of the House Naval Affairs
Committee, which has juris-
diction over the bill, is vigor-
ously opposed to it. Dorsey
charges that behind Vinson
stands the Navy Board. So
strong is his feeling about the
matter that in reprisal he is
threatening to bolt on the
TVA issue.

Dorsey voted for this bill in the
first test, but he now says that
unless Vinson is persuaded to
"lay off" his measure to help
Foote, he is seriously considering
throwing a monkey-wrench into
the Administration's plans to get
another vote on the TVA legisla-
tion.

Texas Bad Men

What Representative Sam Dick-
stein thinks of his two crusading
colleagues, Vito Marcantonio and
Maury Maverick, is unprintable.

The wordy little Tammanyite
was a witness at a hearing of the
House Judiciary subcommittee
when it considered the Kramer
Bill. This makes it a criminal of-
fense to advocate the violent
overthrow of government. Dick-
stein is a strong supporter of the
measure, and the purpose of his
appearance was to explain the
need for such legislation.

Instead, and much to the
annoyance of the committee, he
expatiated for more than an hour
on his personal grievances against
Communists and how they were
"tormenting" him.

"Every night," he cried,
"they march and demonstrate
in front of my house. When I
go home I can't eat, I can't
sleep."

At this point Representative
Maverick let out a loud, raucous
laugh in which the whole room
joined. Dickstein was outraged.
In a towering fury he turned on
the Texan and yelled:

"You think that is funny, huh?
Well, I'm not talking only about
Communists. There is another or-
ganization just as bad in Texas."

"What organization is that?"
called out Representative Mar-
cantonio. "The Mavericks?"

Dickstein, sputtering like a fuse,
threw up his hands and quit.

NEW TEAROOM TO BE OPENED ON SATURDAY

Dedication Exercises To Be
Conducted Under Auspices
of FHA of County?

The public is invited to attend
the opening of the "Cassabelle
Tea Room", 836 N. Court-st., Sat-
urday afternoon at 3:30 o'clock
when the dedication exercises will
be conducted by the Federal Hou-
sing committee of Pickaway-co.

The building that is occupied by
the tea room was constructed by
Mrs. Luella Plummer as a Federal
Housing project and is the first
building constructed in Circleville
under this plan.

Mrs. Plummer, who came to
Circleville from Charleston, W.
Va., has had over twenty years ex-
perience in the hotel business and
is well qualified to cater to the
demands of the people of Circle-
ville. She will be assisted by Mrs.
Edith Losh, of Long Island City,
N. Y., who also has had much ex-
perience in hotel management.

The building occupied by the
tea room is 24x45 feet with a
room on the north and south end
twenty four feet long and seven-
teen feet wide. These rooms will
be equipped to take care of pri-
vate parties and can easily be
served from the kitchen which is

mittee by C. C. Stillman, state re-

Girl Scout News

Girl Scout troop No. 3 met
Friday for a business session. We
elected officers. Pollyanna Fried-
man was named secretary-treasur-
er; Betty Betz, scribe, and Med-
with Bach, assistant scribe.

Tuesday we went on a breakfast
hike at 5:30. It was a cool morn-
ing. We chose a spot by a creek.
Our girls had a time getting the
fire started because the wood was
damp. We tried to fry bacon and
eggs, which we had to eat half
raw. Although we had this handi-
cap we enjoyed ourselves.

After our scanty breakfast some
of the girls went wading. On the
way home we picked wild flowers.
We had a joyous morning.

the rear of the lunch counter
which occupies the front of the
building.

The second floor of the building
will be occupied as a residence by
Mrs. Plummer and contains four
large rooms.

Now is the Time to Build or Remodel . . . and Benefit by the FHA

Home owners everywhere are getting into the
spirit of repair and remodeling work—and why
not for under the Federal Housing Act they can
get financial assistance from the government to
do this work under very satisfactory terms.

If you are considering any repairing or re-
modeling or if you plan building a new home we
will be glad to give you an estimate on the job
and full information concerning the Federal
Housing Finance Plan.

We Congratulate

Mrs. Luella Plummer on the completion of
"The Cassabelle Tea Room" and are proud
that we had a part in erecting this building
under a Federal Housing Act Loan.

had been an employer of Ouida
Keeton at intervals since her gra-
duation from the local high school,
in 1920. He was a frequent visitor
in the Keeton home, an advisor to
the family. What interest, if any,
he had in Ouida other than a
trusted family friend, has not been
disclosed.

Miss Keeton insisted that she
and Carter decided "to get rid of
mother so I could have more privi-
leges. We fixed the time and he
told me exactly what to do. He
struck her down with a heavy iron
poker."

Carter is known to have visited
Ouida at the filling station run by
her brother-in-law, David P. Mc-
Rae, where she was employed, on
the day she says that she and Car-
ter planned her mother's murder.
No motive has been discovered ex-
cept the possible desire of Ouida
to keep control of the family funds,
approximately \$30,000.

In 1925 Mrs. Keeton was sued

Federal Housing Administration
for Pickaway-co.

There will be music by the ju-
nior band of the public schools un-
der the direction of Prof. Zaeng-
lein.

A large crowd of interested per-

sons is expected to attend these
exercises as National Better Hou-
sing Day is being celebrated all
over the United States and Circle-
ville is fortunate in having a
building already constructed un-
der the Federal Housing plan and
also in securing the services of
Mr. Corotis from the district of-
fice to thoroughly explain the op-
erations of the Federal Housing
plan.

There are a great many persons
in this community who contem-
plate building new homes and re-
modeling their old ones and the
Government has made it possible,
through this plan, for them to ob-
tain money from the banks at a
low rate of interest for building
and remodeling.

It is suggested by the Chairman
Mack Parrett, Jr. for all to be
present at these exercises and ac-
quaint themselves with benefits of
this easy way to build and remo-
del homes.

LOCAL FIRMS HELP IN NEW BUILDING

When the dedication of the
"Cassabelle Tea Room" is held
Saturday afternoon under the Bet-
ter Housing program of the Fed-
eral Housing committee of Picka-
way-co, several local concerns will
be mentioned as having a part in
the construction of the building
under the Federal Housing Act.

The lumber and mill work for
the new building was furnished by
the Circleville Lumber Co., T. O.
Gilliland, chairman of the Picka-
way-co committee, has been very
active in promoting the program
of construction and remodeling un-
der the FHA act and can be
proud of the building occupied by
the tea room.

The Myers Cement Products Co.
furnished the concrete blocks,
stucco and plaster for the build-
ing as well as doing the cement
work.

ministration, to strengthen the
legal powers of the TVA.

The measure was passed by
the Senate by a large vote.
But a Democrat-Republican
coalition in the House, Com-
mittee refused by a 13 to 12
count to give it a favorable
report. The Administration is
making a strenuous behind-
the-scenes effort to break this
deadlock.

A member of the committee is
Frank Dorsey, Philadelphia Dem-
ocrat. Dorsey is a friend and
warm admirer of Captain Percy
W. Foote, Chief of Staff of the
Philadelphia Navy Yard.

Foote, an aide to Josephus Dan-
iels when the latter was Secre-
tary of the Navy, is rated an able
popular officer, but in 1921 while
in the performance of duty his
hearing suffered an impairment.
As a result the Navy Board has
refused to pass him for advance-
ment to the rank of Admiral.

On the ground that this attitude
is arbitrary and unfair, Dorsey
introduced a bill requiring the
Navy Board to give his friend a
new examination. Daniels, now
Ambassador to Mexico, personally
testified in behalf of the measure.
Governor Earle, of Pennsylvania,
and others wrote letters endorsing
it.

But Chairman Carl Vinson
of the House Naval Affairs
Committee, which has juris-
diction over the bill, is vigor-
ously opposed to it. Dorsey
charges that behind Vinson
stands the Navy Board. So
strong is his feeling about the
matter that in reprisal he is
threatening to bolt on the
TVA issue.

Dorsey voted for this bill in the
first test, but he now says that
unless Vinson is persuaded to
"lay off" his measure to help
Foote, he is seriously considering
throwing a monkey-wrench into
the Administration's plans to get
another vote on the TVA legisla-
tion.

Texas Bad Men

What Representative Sam Dick-
stein thinks of his two crusading
colleagues, Vito Marcantonio
and Maury Maverick, is unprintable.

The wordy little Tammanyite
was a witness at a hearing of the
House Judiciary subcommittee
when it considered the Kramer
Bill. This makes it a criminal of-
fense to advocate the violent
overthrow of government. Dick-
stein is a strong supporter of the
measure, and the purpose of his
appearance was to explain the
need for such legislation.

Instead, and much to the
annoyance of the committee, he
expatiated for more than an hour
on his personal grievances against
Communists and how they were
"tormenting" him.

"Every night," he cried,
"they march and demonstrate
in front of my house. When I
go home I can't eat, I can't
sleep."

At this point Representative
Maverick let out a loud, raucous
laugh in which the whole room
joined. Dickstein was outraged.
In a towering fury he turned on
the Texan and yelled:

"You think that is funny, huh?
Well, I'm not talking only about
Communists. There is another or-
ganization just as bad in Texas."
"What organization is that?"
called out Representative Mar-
cantonio. "the Mavericks?"
Dickstein, sputtering like a fuse,
threw up his hands and quit.

All those G-men pictures may
benefit parents in one way. Young-
sters will be a bit more careful
about leaving fingerprints around.

NEW TEAROOM TO BE OPENED ON SATURDAY

Dedication Exercises To Be

The public is invited to attend
the opening of the "Cassabelle
Tea Room", 836 N. Court-st, Sat-
urday afternoon at 3:30 o'clock
when the dedication exercises will
be conducted by the Federal Hou-
sing committee of Pickaway-co.

The building that is occupied by
the tea room was constructed by
Mrs. Luella Plummer as a Federal
Housing project and is the first
building constructed in Circleville
under this plan.

Mrs. Plummer, who came to
Circleville from Charleston, W.
Va., has had over twenty years ex-
perience in the hotel business and
is well qualified to cater to the
demands of the people of Circle-
ville. She will be assisted by Mrs.
Edith Losh, of Long Island City,
N. Y., who also has had much ex-
perience in hotel management.

The building occupied by the
tea room is 24x45 feet with a
room on the north and south end
twenty four feet long and seven-
teen feet wide. These rooms will
be equipped to take care of pri-
vate parties and can easily be
served from the kitchen which is

Girl Scout News

Girl Scout troop No. 3 met
Friday for a business session. We
elected officers. Pollyanna Fried-
man was named secretary-treasur-
er; Betty Betz, scribe, and Med-
rith Bach, assistant scribe.

Tuesday we went on a breakfast
hike at 5:30. It was a cool morn-
ing. We chose a spot by a creek.
Our girls had a time getting the
fire started because the wood was
damp. We tried to fry bacon and
eggs, which we had to eat half
raw. Although we had this handi-
cap we enjoyed ourselves.

After our scanty breakfast some
of the girls went wading. On the
way home we picked wild flowers.
We had a joyous morning.

the rear of the lunch counter
which occupies the front of the
building.

The second floor of the building
will be occupied as a residence by
Mrs. Plummer and contains four
large rooms.

Now is the Time to Build or Remodel . . . and Benefit by the FHA

Home owners everywhere are getting into the
spirit of repair and remodeling work—and why
not for under the Federal Housing Act they can
get financial assistance from the government to
do this work under very satisfactory terms.

If you are considering any repairing or re-
modeling or if you plan building a new home we
will be glad to give you an estimate on the job
and full information concerning the Federal
Housing Finance Plan.

We Congratulate

Mrs. Luella Plummer on the completion of
"The Cassabelle Tea Room" and are proud
that we had a part in erecting this building
under a Federal Housing Act Loan.

had been an employer of Ouida
Keeton at intervals since her gradu-
ation from the local high school,
in 1920. He was a frequent visitor
in the Keeton home, an advisor to
the family. What interest, if any,
he had in Ouida other than a
trusted family friend, has not been
disclosed.

Miss Keeton insisted that she
and Carter decided "to get rid of
mother so I could have more priv-
ileges. We fixed the time and he
told me exactly what to do. He
struck her down with a heavy iron
poker."

Carter is known to have visited
Ouida at the filling station run by
her brother-in-law, David F. Mc-
Rae, where she was employed, on
the day she says that she and Car-
ter planned her mother's murder.
No motive has been discovered ex-
cept the possible desire of Ouida
to keep control of the family funds,
approximately \$30,000.

In 1925 Mrs. Keeton was sued
by a son-in-law for alienation of
his young wife's affections. He won
the case to avoid seizure of prop-
erty in settlement of judgment.
Mrs. Keeton presumably deeded
her real estate to Ouida and placed
all cash in her daughter's name,
custody and control.

PUBLIC ASKED TO OPENING OF LEACH GARAGE

Formal Opening of Modern
Structure Is Saturday
Afternoon, Evening.

The formal opening of the new garage of R. M. Leach at 124 E. Franklin-st., announced to take place Saturday afternoon and evening, gives residents of Circleville and Pickaway-co an opportunity to inspect a splendid new building, see modern garage machinery and equipment, attend a motion picture show, and to view a number of new models of Chrysler and Plymouth automobiles.

Although the building is not quite completed and it is probable that the equipment will not all be installed for the opening day, a complete program has been planned for the visitors. The automobile manufacturers are co-operating with Mr. Leach and the date secured was the only one available during the present month. However, Mr. Leach hopes to have everything in readiness and ready for the inspection of the public.

Modern Building

The new building, construction work on which was started early this spring, has a frontage of 55 feet and a depth of 130 feet. It is constructed of concrete block, brick and steel, with a new type built-up, fire-resisting roof, with concrete floors throughout. The Franklin-st. entrance is located on the west side and is 13 feet wide and 12½ feet high, giving clearance to trucks carrying high loads. The doors at the front entrance, as well as the alley entrance on the east side of the building, are the overhead type in common use in garage buildings.

The show room occupies the most prominent part of the building. It is approximately 41x35 feet, has a red cement floor, paneled Masonite ceiling, and two large plate glass windows, eight by ten feet, facing Franklin-st. and smaller plate glass windows on the alley side. The room is well lighted, nicely finished, and has a number of attractive electric light fixtures. The business office, private office and stock room are located immediately back of the show room, and are modern in every way.

The garage room and repair shop occupies approximately 4,000 square feet of floor space. It is well lighted by a number of steel-frame windows on the alley side and two large skylights, with drop lights installed where necessary and convenient for the operation of machinery.

A modern heating and ventilating equipment will be installed in the basement to properly heat and ventilate the entire building.

New Machinery

Mr. Leach has purchased at considerable expense a Walker portable electric lift, a modern device that enables the operator to work on any part of the largest or smallest cars with ease. This is the first equipment of this type in Pickaway-co and only a few of them have been installed in cities much larger than Circleville. Other equipment includes everything that is necessary for general repair work on all makes of cars and trucks from tire to top, and a battery of lubricating devices, a feature of which will be Pennzoi lubricants and Sludgeproof Pennzoi.

Mr. Leach stresses the fact that his new garage will be able to take care of mechanical repairs for all types of cars and trucks, and he will maintain day and night wrecker service.

Chrysler-Plymouth Agency
Mr. Leach, a native of Delaware, came to Circleville from Chillicothe in April 1917. He has been identified with the motor industry since its beginning and for many years worked as an expert mechanic. He established a garage here which he has successfully operated since that time.

He became local distributor for Chrysler automobiles the same year they were first manufactured, in 1924, and has since been the resident agent. He also took over the Plymouth agency in 1928, being the pioneer in the county with this particular car.

His business grew rapidly, and in the formal opening he takes great pride in presenting for inspection one of the most modern garages in Pickaway-co.

He is the local agent for Reo trucks.

A complete line of tires, tubes, automobile accessories, Fleetwing gasoline, oils, greases, etc., will be included in the stock of merchandise.

In spite of the general business depression, Mr. Leach went ahead with his extensive building plans and a heavy investment, having faith in the future of Circleville.

BIGGER AND BETTER SUMMER

THAT old-time favorite, In The Good Old Summertime, has an especial significance this summer, with the nation starting on the road to economic recovery.

It is not apparent at this late day what inspired the composer to write this roundelay which is joyous lilt and elation, but if he were to write it today all the world would understand and be in sympathy with him. Artificial inspiration from a jug of cider would be superfluous.

A business superstition as old as, if not older than, the summer song, maintained that when summer came in the window business flew out the door. The "summer slump" was a reality to the business man because he believed in it and did nothing to stop it.

This summer is a living refutation of that superstition. Instead of slumping, business is experiencing a rebirth, a revival. Summer is making business, not killing it. It cannot take all the credit, but no one is in the mood for quibbling over such trifles at such a time.

It is a good old summertime when people are returning to work, when all lines of retail business report appreciable sales gains, when the building industry gets its first taste of business in five years and when money starts to flow again.

STAGE FRIGHT

BOYS and girls who have lately or are about to suffer the acute agony of standing before their classmates and reciting "The Wreck of the Hesperus" or "The Cataract of Lodore" or something else one of those early, thoughtless poets put down on paper to annoy later generations, have found a fellow sufferer. It is no one else but Mme. Schumann-Heink, who has sung to millions in difficult operatic roles and who has spoken often and at length over the radio. In her first essay before the movie camera, she forgot her lines, looked wildly into the wings for a prompter, then burst into tears.

Probably the madame shouldn't allow that seriously to interfere with her peace of mind or her movie career. Looking back, one can recall many men who as boys forgot their lines and all but wracked the schoolhouse getting out and home to mother. It was tragic to them, fun for the others, but the embarrassment was extremely temporary; they have gone onward and upward. If we were permitted to offer advice to a beginner, such as Mme. Schumann-Heink, we would tell her to keep her chin up and take courage from the experience of "The Boy Stood on the Burning Deck."

But why are they hitch-hikers when they neither hitch nor hike?

A dictator is like prayer—no longer believed in when the emergency is ended.

A public official needn't worry so long as his only critics are those who want his job.

Eliminating poverty will be nice; but if everybody gets rich, who will be left to snub?

An enemy has one advantage over a friend. People don't snub him any worse when they get rich.

A Pittsburgh policeman admits that he helped robbers loot a store. It seems they were just young chaps without any previous experience with burglary and his heart was touched by their bungling efforts to crack a safe, so he lent an experienced hand.

Looking Back in Pickaway County

FIVE YEARS AGO
J. A. B. Wagner was elected superintendent of Salt Creek township schools to succeed W. A. Dyer, Turlington. Other teachers named were Marion Miller, principal; Agnes Schoel, fifth and sixth grades; Merle Kuhn, third and fourth grades; Alice Barton, first and second grades.

Twenty-five candidates filed petitions with the board of elections for eight important county offices, and the primary election campaign was under way.

Five cases of scarlet fever were reported in the home of Charles Ward in Jackson-twp and the home was quarantined. Four cases of measles were reported at Williamsport.

15 YEARS AGO
The Methodist Brotherhood was entertained at a garden party at the home of Mr. and Mrs. John May, near Ringgold. Talks were made by Judge George H. Pontius, E. B. Tussing of Canal Winchester and Byron Sawyer, district superintendent of schools of Franklin-co.

Following a whirlwind romance in Shanghai where he is attached to a U. When Val is transferred to Puget Sound Navy Yard, Lia is greatly disappointed at leaving China. At Bremerton Val meets a business girl, daughter of Captain Edding who is also stationed there. His childhood sweetheart, he left her in a huff as she sailed from Shanghai and that same day first met Lia. The Prestons meet Maurice Cordray, an aviation executive, who displays an unusual interest in Lia. After a business trip to Seattle with Captain Edding, Val returns to find Lia giving a party. At first incensed, he later joins in. Suffering ill effects from the party, the next day Val sends the wrong refusing orders in code to the fleet practicing off the coast. A serious offense, he fears a court-martial. Terrified by Captain Edding, Val is told he will receive a "bad fitness" report and is warned that his conduct must change.

CHAPTER 23

OUTWARDLY CALM but seething with inner resentment, Val bowed, about-faced and strode through the outer office and down the stairs to the street. Even the bad fitness report was overshadowed by the raging knowledge that Captain Edding was responsible for his orders to this place. As he emerged from the entrance the sight of a cocky destroyer, outward bound, snatched at his burning gaze and filled him with a sharp nostalgia for the sea. There on the deck of a ship was where he belonged, he raged inwardly. But they had forced him to surrender all that! Trapped in a hum-drum of office routine, he was doomed to "babe" for two good years of his life under the narrow formalities obligatory to those stationed in a navy yard.

What if Captain Edding had spared him a court-martial? It was due to that bird's meddling that he found himself in this blind alley. And now the captain expected him to be a chastened spirit, to take orders from Kent Townley! Well, the navy could find someone else to save its fuel oil. He wouldn't touch that gig with a ten-foot pole.

He turned to strike back up the hill, to go to be alone for a while to get hold of himself. If he returned to the office just now, he'd blow up. Lia had mentioned that a golf lesson was to occupy her morning. He would go home.

When he entered the bungalow through the kitchen, Opal—the maid who came in for several hours each day—stood at the sink. As always he became instantly conscious of the sharp sense of uneasiness this woman engendered. She was a thin, swarthy creature whose malicious pale-gray eyes filled him with distrust. Not even an efficient servant, she had early proved herself an incorrigible gossip who knew the affairs of every house in the yard. Lia, however, had scoffed at his prejudice and had insisted that even supposing a competent maid could be persuaded to isolate herself in this out-of-the-way hole, she would be beyond their means. And so, against his better judgment, the sly Opal had remained.

Even now, when she informed him Mrs. Preston was out, there was something in her manner that nettled him. Lia had gone off to a golf lesson—but Lia made it appear more mysterious, more alarming than that. He went into the front of the house and, grateful to be alone at a space, threw himself into a chair, lighted a cigaret and stared about the room that was the center of his home.

Yesterday the buck-toothed decorator from Seattle had moved in the last of their new furnishings. Val shrugged as he sought to avoid the striped insistence of two zebra skins

If the zebra had been all! From silver tea-chest wall paper to the black satin divan that might have been designed for the indiscretions of harem odalisques, his weary eyes stared at the room. The small grand piano with the mandarin coat across its top was okay; so were the peach-blossom lamps with silver shades. But he scowled at the modernistic chairs whose chromium legs matched the occasional tables; he disliked the diaphanous black window drapes scattered with silver birch leaves; nor could he respond happily to the fireplace whose honest brick had been replaced by black tile, mirror squares and a black mantel bearing a pair of jade lions on carved teakwood stands.

In other words, he thought with a yet, just the little right haven where a tired man could relax and light his pipe! Despite the doubtful compliment of the zebra, the decorator had insisted this mélange exactly suited Mrs. Preston's personality. Val grunted disgustedly, and yet, Lia was pleased he mustn't disparage her taste. It had cost almost every cent of his cash balance, but the youngster had had a grand time spending it. And what if it wasn't his idea of a home? One disappointment more or less shouldn't matter. Lia had suddenly felt as if life had gone haywire.

Convinced by a sick distaste of the whole navy yard situation, he ran nervous fingers through his black hair. Always before when things got a bit complicated, he had side-stepped the tangle and gone blithely on. Late-ly, however, he had been repeatedly overcome with the horrid suspicion that his side-stepping days were over—and that something inescapable impended. The hitherto pleasant current of his life was becoming suddenly more swift, more dangerous. Where was it carrying him? And why the hell had Captain Edding meddled in his affairs to bring him to this blasted navy yard?

Oh well, to sit brooding here got him nowhere. Better get back to the office before Lia should return and he would pour out his troubles to her. THEATRES

AT THE CIRCLE

It was only a few years ago that Russ Columbo, celebrated radio crooner making a decided hit as romantic lead opposite Constance Cummings in "Broadway Thru a Keyhole," the Walter Winchell story at the Circle theatre tonight, was going from studio to studio begging for a chance.

They could have had this singer for a song then, but they wouldn't listen, so Russ left Hollywood and at least a hundred million radio listeners heard his voice before the studio gates were opened to him.

"Broadway Thru a Keyhole" is a 20th Century Picture presented by Joseph M. Schenck and Darryl Zanuck and released through United Artists.

AT THE GRAND

Describes by pre-view commentators as one of the most ingenious melodramas produced in Hollywood in many months, the Fox Film production "Mystery Woman," featuring Mona Barrie, Gilbert Roland, John Halliday and Rod LaRocque, will be seen at the Grand Theatre Friday and Saturday.

"Mystery Woman" is a story of a gallant wife's struggle to clear her husband from disgrace. Written by Dudley Nichols, one of the screen's ablest authors, in collaboration with E. E. Paramore, Jr., it was turned into script form by Philip MacDonald, who has authored the "Charlie Chan" mystery films since the death of Earl Derr Biggers.

AT THE CLIFTONA

The most amazing revelation of nature's intimate secrets ever attempted for the screen is to be seen in "Sequoia" (pronounced "See-Quo-Yah"), startling outdoor drama featuring Jean Parker and now showing at the Cliftona Theatre.

Nearly two years in the filming, the picture deals with a friendship between a deer and a mountain lion, two of nature's most deadly enemies. Raised together from the "bottle feeding" age, the two animals are shown fighting the wilds together.

In addition many other species of American wild life were "stalked" with a camera, including coyotes, bears, raccoons, eagles, rattlesnakes, baby fawns and small lion cubs.

NEW SERIAL

Manager Walker Baughman of the Grand theatre announces that he has booked "Call of the Savage," the most thrilling adventure serial that Universal Pictures has ever made. This serial is in twelve episodes and the first chapter will be shown Friday and Saturday.

"Call of the Savage" is laid in the heart of the African jungle. Noah Beery, Jr., son of the famous Noah Beery, and Dorothy Short are featured in the leading roles. A splendid supporting cast includes players as Bryant Washburn, Walter Miller, H. L. Woods, John Davidson and Fred MacKay. Louis Friedlander handled the megaphone.

Little White Ring in Eye Does Not Denote Senility

By LOGAN CLENDENING, M. D.

SOME PEOPLE have a little white ring around the outside ring of the colored part of the eye. It is known technically as the "arcus senilis".

When I was a medical student, we used to pay a great deal of attention to this in the first place. It is an imposing sounding name, and if you have one in your house, you know that medical students like to use imposing names.

Then, it was easy to spot and gave us a specious feeling of uncanny diagnostic ability.

Perhaps the subtlest reason we liked to notice it was due to a feeling of superiority over the patient. We were taught in those days that the fellow who had an arcus senilis was about all in. And in those days we, on the contrary, were young and healthy.

"Arcus", of course, means ring, and "senilis" means of old age. We would frequently find the arcus in comparatively young people, and the supposition was that it denoted premature aging, and that hardening of the arteries and heart disease and Bright's disease had set in when the arcus senilis appeared.

Thought to Denote Arterial Change
The blood pressure apparatus was not in general use at that time and

if we didn't get more he was going out and try to find a job."

She was in deadly earnest and yet we greet the story with smiles, most of us. As a matter of fact, the principle involved is anything but a laughing matter. It spells for us something totally foreign to our idea of America. But it is here and growing every day.

the arcus senilis was to us a sort of estimate of changes in the arteries which we measure now much more accurately. I am happy to announce that what we thought then was all nonsense, and that it has been shown that the presence of the arcus senilis denotes none of these things.

It is true that it tends to occur as age advances, but it may be found in people as young as 21 years, and appears more to be a family trait than anything else.

A very careful study of about 150 people who had the arcus senilis has been made by a physician of Taunton, Mass. He included all sorts of patients, especially those who had hardening of the arteries, heart disease, high blood pressure and kidney disease. In less than half the cases where arcus was present were these conditions also noted. For instance, so far as Bright's disease was concerned, 63 per cent of the patients with well developed arcus had no evidence of Bright's disease whatever. With high blood pressure only 40 per cent of patients with this condition had a noticeable arcus senilis.

So if you have one, it does not mean that you are prematurely old or that there is any cause to worry.

FAITH IN CIRCLEVILLE

A substantial investment in business property, new construction work, and the purchase of modern mechanical equipment with which to operate his business, R. M. Leach, one of the city's most progressive business men, gives assurance of his belief in community progress and in the city's future. Mr. Leach has been located in Circleville for 18 years and is well known throughout Pickaway-co.

Through good and bad business years, Mr. Leach has gradually forged ahead in spite of periods of business depression, and emerges this year with a new home for his growing business, a modern structure that houses modern machinery and equipment, an efficient working organization, and with bright hopes for the future.

The Herald congratulates him for his enterprise, his spirit of progressiveness and his faith in the future of Circleville as the business center of a prosperous community.

BIGGER AND BETTER SUMMER

THAT old-time favorite, In The Good Old Summertime, has an especial significance this summer, with the nation starting on the road to economic recovery.

It is not apparent at this late day what inspired the composer to write this roundelay which is joyous lilt and elation, but if he were to write it today all the world would understand and be in sympathy with him. Artificial inspiration from a jug of cider would be superfluous.

A business superstition as old as, if not older than, the summer song maintained that when summer came in the window business flew out the door. The "summer slump" was a reality to the business man because he believed in it and did nothing to stop it.

This summer is a living refutation of that superstition. Instead of slumping, business is experiencing a rebirth, a revival. Summer is making business, not killing it. It cannot take all the credit, but no one is in the mood for quibbling over such trifles at such a time.

It is a good old summertime when people are returning to work, when all lines of retail business report appreciable sales gains, when the building industry gets its first taste of business in five years and when money starts to flow again.

STAGE FRIGHT

BOYS and girls who have lately or are about to suffer the acute agony of standing before their classmates and reciting "The Wreck of the Hesperus" or "The Cataract of Ladore" or something else one of those early thoughtless poets put down on paper to annoy later generations, have found a fellow sufferer. It is no one else but Mme. Schumann-Heink, who has sung to millions in difficult operatic roles and who has spoken often and at length over the radio. In her first essay before the movie camera, she forgot her lines, looked wildly into the wings for a prompter, then burst into tears.

Probably the madame shouldn't allow that seriously to interfere with her peace of mind or her movie career. Looking back, one can recall many men who as boys forgot their lines and all but wrecked the schoolhouse getting out and home to mother. It was tragic to them, fun for the others, but the embarrassment was extremely temporary; they have gone onward and upward. If we were permitted to offer advice to a beginner, such as Mme. Schumann-Heink, we would tell her to keep her chin up and take courage from the experience of "The Boy Stood on the Burning Deck."

But why are they hitch-hikers when they neither hitch nor hike?

A dictator is like prayer—no longer believed in when the emergency is ended.

A public official needn't worry so long as his only critics are those who want his job.

Eliminating poverty will be nice; but if everybody gets rich, who will be left to snub?

An enemy has one advantage over a friend. People don't snub him any worse when they get rich.

A Pittsburgh policeman admits that he helped robbers loot a store. It seems they were just young chaps without any previous experience with burglary and his heart was touched by their bungling efforts to crack a safe, so he lent an experienced hand.

AT THE CIRCLE

It was only a few years ago that Russ Colambo, celebrated radio crooner making a decided hit as romantic lead opposite Constance Cummings in "Broadway Thru a Keyhole," the Walter Winchell story at the Circle theatre tonight, was going from studio to studio begging for a chance.

They could have had this singer for a song then, but they wouldn't listen, so Russ left Hollywood and at least a hundred million radio listeners heard his voice before the studio gates were opened to him.

"Broadway Thru a Keyhole" is a 20th Century Picture presented by Joseph M. Schenck and Darryl Zanuck and released through United Artists.

AT THE GRAND

Describes by pre-view commentators as one of the most ingenious melodramas produced in Hollywood in many months, the Fox Film production, "Mystery Woman," featuring Mona Barrie, Gilbert Roland, John Halliday and Rod LaRocque, will be seen at the Grand Theatre Friday and Saturday.

"Mystery Woman" is a story of a gallant wife's struggle to clear her husband from disgrace. Written by Dudley Nichols, one of the screen's ablest authors in collaboration with E. E. Paramore, Jr., it was turned into script form by Philip MacDonald, who has authored the "Charlie Chan" mystery films since the death of Earl Derr Biggers.

AT THE CLIFTONA

The most amazing revelation of nature's intimate secrets ever attempted for the screen is to be seen in "Sequoia" (pronounced "See-Quo-Yah"), startling outdoor drama featuring Jean Parker and now showing at the Cliftona Theatre.

Nearly two years in the filming, the picture deals with a friendship between a deer and a mountain lion, two of nature's most deadly enemies. Raised together from the "bottle feeding" age, the two animals are shown fighting the wilds together.

In addition many other species of American wild life were "stalked" with a camera, including coyotes, bears, raccoons, eagles, rattlesnakes, baby fawns and small lion cubs.

NEW SERIAL

Manager Walker Baughman of the Grand theatre announces that he has booked "Call of the Savage," the most thrilling adventure serial that Universal Pictures has ever made. This serial is in twelve episodes and the first chapter will be shown Friday and Saturday.

"Call of the Savage" is laid in the heart of the African jungle. Noah Beery, Jr., son of the famous Noah Beery, and Dorothy Short are featured in the leading roles. A splendid supporting cast includes players as Bryant Washburn, Walter Miller, H. L. Woods, John Davidson and Fred MacKay. Louis Friedlander handled the megaphone.

THIS IS REALLY SERIOUS,

Many angles of relief and work-relief present themselves. And as usual there are two and often three, or four sides to each problem.

Here's one which at first, blush might bring a laugh: "We just can't keep going on what we are getting." A Kansas woman tells relief quarters. "My husband and I have talked it over and he said,

Little White Ring in Eye Does Not Denote Senility

By LOGAN CLENDENING, M. D.

SOME PEOPLE have a little white ring around the outside ring of the colored part of the eye. It is known technically as the "arcus senilis".

Dr. Clendening

When I was a medical student, we used to pay a great deal of attention to this. In the first place, it is an imposing sounding name, and if you have one in your house, you know that medical students like to use imposing names.

Then, it was easy to spot and gave a specious feeling of uncanny diagnostic ability.

Perhaps the subtlest reason we liked to notice it was due to a feeling of superiority over the patient. We were taught in those days that the fellow who had an arcus senilis was about all in. And in those days we, on the contrary, were young and healthy.

"Arcus", of course, means ring, and "senilis" means of old age. We would frequently find the arcus in comparatively young people, and the supposition was that it denoted premature aging, and that hardening of the arteries and heart disease and Bright's disease had set in when the arcus senilis appeared.

Thought to Denote Arterial Change

The blood pressure apparatus was not in general use at that time and

if we didn't get more he was going out and try to find a job."

She was in deadly earnest and yet we greet the story with smiles, most of us. As a matter of fact, the principle involved is anything but a laughing matter. It spells for us something totally foreign to our idea of America. But it is here and growing every day.

One Minute Pulpit

As a shepherd seeketh out his flock in the day that he is among his sheep that are scattered; so will I seek out my sheep, and will deliver them out of all places where they have been scattered in the cloudy and dark day.—Ezekiel 34:12
